

RENTORDINANCES.COM

Local U.S. governments lacked a web-based resource to assist them with the creation of legislation for tenant protections.

AT A GLANCE

CHALLENGES

- Prospects requiring legislation
- Time consuming research performed by government staff
- Best practices not being deployed

BENEFITS

- Improved, quicker research
- Faster legislation creation
- Better legislation employing proven methodologies
- Accelerated procurement

"Our customers are consistently recognized for implementing creative solutions to important community challenges. We're honored to be their partner in these endeavors."

3DI SYSTEMS, INC.

3DiSystems.com

OBJECTIVES

3Di is an industry leader in providing SaaS tenant protection solutions to governments. Many cities, counties, and states lack the required legislation to implement and enforce effective tenant protections programs.

SOLUTIONS

Most government officials usually draft new legislation based on current legislation, usually from neighboring communities.

Working in collaboration with the CEO, we developed a free resource website that provides government officials and staff with an "easy to use" tool for finding and comparing many tenant protections ordinances.

BENEFITS

Benefits One

Governments can spend less time researching existing legislation to draft new legislation.

Benefits Two

Government can employ best practices for enforcement from effective legislation.

Benefits Three

Required legislation can be created in less time, which can speed up the procurement process.

Benefits Four

By providing a valuable resource at not cost, 3Di continues to establish its presence as a thought leader for government solutions.
